ISE Logik is fully committed to providing product transparency, low-VOC, sustainable, and innovative products for waterproofing concrete.

ISE LOGIK CWPA 800

Enhanced operational efficiency and quality control with liquid integral waterproofing for watertight concrete. CWPA 800 is UL Classified Water Quality, HPD, GREENGUARD, GREENGUARD Gold, and EPD Compliant.

The Facts

- ASTM C494 Type S Certified
- Each batch pre-tested for performance
- HPD (Health Product Declaration) Certified
- EPD (Environmental Product Declaration) Certified
- GREENGUARD and GREENGUARD Gold Certified
- UL Classified Water Quality Seal for safety and effectiveness
- Does not promote corrosion
- Completely blocks water migration through concrete CRD C48-92 and DIN 1048
- Enhanced durability
- Meets specifications for PRAN and PRAH (ACI 212.3R-10)
- Air entrainment compatible
- Minimal effect on set time in normal ambient environment

Multiple Uses

- Elevator pits and retaining walls
- Water retaining structures such as swimming pools and cisterns
- Foundations
- Footings and other underground structures
- Civil engineering projects
- Pre-cast components

CWPA 800 Value

- Enhanced operational efficiency
- Liquid admixture streamlined for concrete production facility
- Reduced labor
- Increased safety
- Dispenser ease with accurate batching
